PS LOUVERS  
THERMOLAM**

### FEATURES

# Unicore PVC LAMINATES

## Interesting Facts about PVC

### Discovery

PVC was accidentally discovered, not one but twice! It was first stumbled upon in 1835 by the French chemist, Henri Victor Regnault and then it was rediscovered by the German, Eugen Baumann in 1872.

### Structure

PVC is a white, brittle solid but it can be more flexible when plasticised.

### Durability

A recent study by the European Council of Vinyl Manufacturers (ECVM) demonstrated that PVC can last up to 70 years in some cases - providing reliable service throughout its entire lifespan.

### Recyclable

Like all thermoplastic, PVC is ripe for recycling. PVCu can be reshaped at very high temperatures; giving it great recycling possibilities.

## Product Information

**Thickness :** 1.25mm (±10%)

**Standard Sizes :** 1220mm X 2440mm (±10%)

**Sheet Options :** Length : Any (on order)  
Width : 1220mm

**Range :** These PVC Laminates come in a wide range of design, colours and finishes.

### Disclaimer:

- Company is not liable for colour variation after installation.
- Check the sheets for colour variation before installation.
- The laminates in the catalogue may differ in colour from the original laminates.
- Company is liable for replacement of the sheet only in case of any manufacturing defect.
- The sample swatches only represent the designs, colours and finish.
- They do not represent the actual thickness.
- Company is not liable for any air or bubble on sheet after installation.

## Technical Specifications

**Application :** Ensure proper use of substrates and observe careful bonding techniques. These laminates can be easily applied on pvc boards, plywood, hdf, or high quality fibre boards. The surface of the substrates should be smooth and free of wax, dust, grease, chips or any other foreign matter. We do not recommend any kind of coating like pu based, melamine, lamination or wax on our products.

**Adhesive :** NU Smart PVC Laminates can easily be applied using conventional water and solvent based adhesives normally used with plastic laminates. We DO NOT recommend the use of heat activated adhesives.

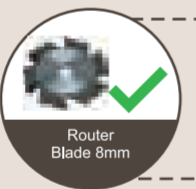

Other Cutting Blades

Diamond Cutting Blades

**Bending :** Kindly use V-Groove cutter to bend the sheets to 90°. For any difficulty please contact Nu Smart.

Router Blade 5mm

**Cutting & Machining :** These laminates can only be cut by using diamond blade cutter only.

**Maintenance :** Any cleaning agent containing acids, alkalis or abrasive should NOT be used to clean the laminate. Exposure to sunlight should be avoided.

**Kindly remove the protective film within 7 days of installation of laminates. Customized sizes and shades can be developed on request.**
